Effective date: February 26, 2019

Grant Espanet ("us", "we", or "our") operates the mobile application (the "Service").

This page informs you of our policies regarding the collection, use, and disclosure of personal data when you use our Service and the choices you have associated with that data.

We use your data to provide and improve the Service. By using the Service, you agree to the collection and use of information in accordance with this policy. Unless otherwise defined in this Privacy Policy, terms used in this Privacy Policy have the same meanings as in our Terms and Conditions.

## Information Collection And Use

We collect several different types of information for various purposes to provide and improve our Service to you.

### Types of Data Collected

When you sign in to Our Service with Google, we will collect an id number unique to our Service and the email you used to sign into Our Service.

By using Our Service, you understand that any data you “back up” to our app while logged in with Google is intended to be viewed and edited by you alone. However, we want you to understand that nothing on the internet is completely secure as a breach of security is always a possibility. If you don’t want any of your notes to go to our backend server, then simply don’t sign in to Our Service with Google. You are free to use Our Service without signing into Google. If you already signed into Google with Our Service and want to delete all of the notes you created on our server, then you can simply delete all of your notes on the app while logged into Google on our Service, then sign out of Google on Our Service, thus continuing to use Our Service “locally” without backup.
